The service and the repair: The manufacturer provides a 24-month warranty.

Features:

- remote radio on - switching off using the remote control
- quiet operation - no audible and bothersome sound
- battery charge indicator and status indicator.
- simple exploitation.

Specifications:

- maximum range: depending on the eavesdropping one ought to accept the area 05 - 4 meters
- directivity of the work of the device Mosquito-08 in the ground plane 85 °
in the vertical plane 85 °
- control by means of a wireless remote control - switching on and off, working range about 20 meters.
- wireless remote control: operating frequency 433.92 MHz in the ISM band
- power supplies: the built-in internal accumulator Li-ion / the power supply 5V/110-230V
- maximum continuous operating time 4-5 hours, break time 30 minutes.
- work times from the built-in accumulator about 4-5 hour
- time of the battery charging about 3 hours
- weight: 550 grams
- the range of the work in the temperature from 0 ° to + 40 ° C (32-104 Fahrenheit)
- size: 200 x 120 x 40 mm
- guarantee: 24 months
