

Professional Grade Total Discreet

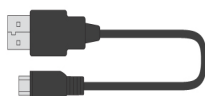

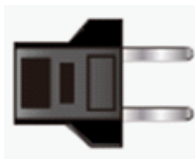

The revolutionary next generation portable covert surveillance device

HD WI-FI Power Case Camera PV-RC100W

Fully Support WIFI IP Remote Feature

Accessories

Specification

Resolution	480P / 720P (Max : 25fps ; Typical : 23fps)
Sensor	Build-in 720P HD 1/4" CMOS
Lens F/No (Aperture)	F2.6
Min. Illumination	0.5 Lux
Angle of View	72°
Photo Resolution	480P / 720P
Compression Algorithm	H.264 / Audio : PCM
Video File Format	AVI
Picture File Format	JPG
Wi-Fi Standard	IEEE 802.11b/g/n 2.4GHz ISM Band
Video Recording Mode	Standard / Motion Detection
Memory Type	Supports up to 64GB SDHC Micro SD
Frame Rate	10/ 15/ 20/ 25 Adjustable
Time Stamp	YES
LED Indicator	Charge / Power / WI-FI / REC
Vibration Alert	Power On/Off ; Boot up completion Rec On/Off ; Photo
Power Input	DC 5V 2A
Charge Current	1A
Power Consumption	Max. 1.7W
Battery Type	Build-in 1450mAh Charge Circuit Li-Ion Battery
Charging Time	2.5 hours
Operating Time	Approx. 160min /w WIFI always On
APP	iOS / Android
Weight	86 g
Dimension	73*158*16 mm

Independent main chip construction design without cost concern, making the WIFI have higher priority for the resources of the system which allow it operate much more stable than other kinds of the market in any crucial condition and environment

A special fine tune WIFI signal transceiver make it have the best sensitivity range and straight, no interference concern by the potential metal construction

Advanced and fine-calibrated multi-channel power manager IC system, making sure the whole power supply system very reliable without possible interference by the wireless signal, which make the WIFI device more stable than others

A premium design for every part of the system making the integrated performance output hi-speed response including no any lag while streaming a real 720p@25fps video through WIFI

Most friendly and clearly UI design on both device hardware and APP software

Highly confidential of the data transmission which been encrypted for all data packets been sent, only will be decrypted receiving by the special APP

A prompt & direct push notice feature will be made into your cell phone once it's motion detection recording been triggered

All systems device adopted the extra low light CMOS camera sensor supporting down to 0.5lux

The only battery lifetime status can be updated and previewed remotely via WIFI in real time instant & precisely
